

Scottish Badgers

Registered Badger Worker Training Scheme Level One

Chatelherault Country Park, Hamilton

Saturday, 25th & 26th October 2014

In this two day course, participants will learn about the biology, ecology and the law regarding badgers. The course is a mix of classroom theory and practical field training.

Throughout the training scheme, participants will learn how to identify and competently record badger setts across a variety of habitats through continual professional development.

Course outline:

- **Badger biology, ecology & field signs**
- **Badgers & The Law**
- **Fieldwork: participants will be shown how to record and survey for badgers in the field.**
- **Assessment: assessment is required to ascertain that participants are competent in locating a badger sett and signs and recording the same. (Assessments are run at a later date)**

Price: £120 for two days practical training, assessment fees, essential resources and continual training where required.
