

Badger and Technology

The project covers Technology by:

1. Giving the pupils the opportunity to learn and set up the cameras at the sett
2. Editing the video footage from the cameras
3. Designing their own movie
4. Internet searches on the various questions asked throughout their pack
5. The use of GPS to find the sett
6. Final presentation – using a range of technology and resources to make their 15 minute presentation

Ideas

1. Under Expressive Arts – using a product of your choice design a logo with a badger theme
2. Design a badger board game – left open to their imagination
3. Design/suggest ways that would encourage badgers to use underpasses on busy roads or to cross electric fences/railway lines.
4. Design a road sign to warn drivers of badgers
5. Design a sign for parks/gardens to let others know that the place is a badger friendly place.
