

Badger vs Fox

2 player game

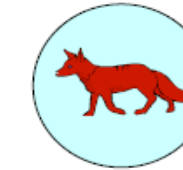

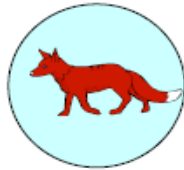

You will need:

1 board and 4 counters each (included)

How to play:

1. Place your counters on to separate sides of the board.
2. Take turns to move a counter **ONE** space, either vertically or horizontally into an **EMPTY** space.
3. You may **NOT** place a counter in a square that already contains one.
4. You can't jump over counters.
5. If you can't move, you miss a turn.
6. You win if you can get all of your counters into your opponent's starting positions.

Counters: Choose who is going to be the badger and who is going to be the fox, then swap around.
